Name	:	Vignesh Suryah Mani
Total Experience	:	10 Years
Profile	:	Java-UI Full Stack Developer
E-Mail Id	:	vigneshsuryah.blue@gmail.com
Mobile Number	:	+91 99525 12561

EDUCATION

Title of the Degree with Branch	College/University	Year of Passing
M.B.A in Information Systems [Distance Education]	Bharathiyar University SDE	2014
M.E Applied Electronics [Full Time]	Kumaraguru College of Technology / Anna University	2011
B.E Electronics and Instrumentation Engineering [Full Time]	Sri Ramakrishna Engineering College / Anna University	2009
Standard 12th	Chinmaya Vidyalaya Matriculation Hr. Sec School	2005
Standard 10th	S.B.O.A. Matric. & Hr. Sec. School	2003

EXTERNAL CERTIFICATION:

No	Name of Institution (e.g. NIIT, APTECH, SSI Etc)	Diploma or Certificate	Year of Completion
1	IIHT	Java-UI Full Stack Developer	2018
2	Udemy and Cloud Academy [Courses and Hands-On labs]	AWS Certified Developer Associate	Dec, 2020

TECHNICAL SKILLS

Programming Languages	Java, JavaScript, HTML5, CSS3, jQuery
Databases & Tools	DB2, Oracle, MongoDB, DBeaver, Robo 3T
Other Utilities worked	Spring (MVC, Boot, Integration, Data JPA, JDBC, Batch), Angular, Node.js, Bootstrap, Hibernate, REST, SOAP, IBM WebSphere Application Server, XML, Maven, JUnit, Mockito, Log4j2, Worked using Atlassian tools (Jira, Confluence, Bamboo, Bitbucket), IBM WebSphere Application Server, Spring tool suite, IBM Clearcase, WinScp, Putty, Apache Jmeter, Microsoft Visual Studio Code, Eclipse, Apache POI, Tortoise SVN, Postman, Rest Client, Atom, SoapUI, Netflix Archaius, Netflix Circuit Breaker, Netflix Hystrix Dashboard, Apache Tomcat, Undertow, Spring Boot Admin Server, Veracode, Checkmarx, JSON, GIT, Notepad++, Docker and Jenkins
Project Models worked	Water flow, Agile

SUMMARY:

- Progressive career in Information Technology of nearly 10 years with experience in analysis, design, development, testing and deployment of software applications using Full Stack technologies.
- Over 9+ years of diversified healthcare industry experience with exceptional record of delivering cost effective, high performance technology solutions to meet challenging business demands. Consistently demonstrated ability to lead high-performing teams.
- Expertise in Full stack technologies for designing and developing end to end software solutions using Angular, Node JS, MongoDB, Java EE, Spring MVC, Spring Boot, Spring JDBC and micro services architecture based RESTful services.
- Developed software solutions per business needs and conferring with User Acceptance Test cases by adhering to best practices and coding standards.

- Experience in various Atlassian tools such as Jira, BitBucket, Bamboo and Confluence for issue tracking, continuous deployment, integration and knowledge sharing.
- Created architectural designs using Object Oriented Analysis, Design / Development Methodologies, Java and JEE Core Design Patterns to articulate the business context, conceptual design and component level logical design, worked on end to end solution architecture and coordinate with other architecture disciplines in the completion of the architecture models.
- Applied the industry accepted architecture practices and techniques, work with the team to integrate those practices and techniques to help develop enterprise roll out and adoption strategies.
- Evaluate and select from existing and emerging technologies the options that best fit business and IT strategic needs and present the analysis and recommendations to senior leadership on emerging technologies.
- Provided support to team members, system integration testing team, end to end testing team, user acceptance testing team and performance testing team by identifying test data for all testing environments.
- Served as designated mentor for developers outside of the project team, as well as mentor team members in own projects.
- Applied best-practices and coding patterns to ensure the solutions are maintainable, modular of high code-quality and work well across browsers and devices.
- Provided support for DevOps and system admin team to deploy and configure the applications to achieve desire performance results, provided support to system integration testing team, user acceptance testing team and performance testing team by identifying test data for all testing environments.
- Served as designated mentor for developers outside of the project team, as well as mentor team members in own projects.

EMPLOYMENT HISTORY:

Name of the Company	Designation	Address of the employer	From	To	Duration (Years)
Cognizant Technology Solutions India Limited	Manager	CHIL SEZ Coimbatore	01/01/2021	Till Date	5 Months
Cognizant Technology Solutions India Limited	Senior Associate	CHIL SEZ Coimbatore	07/01/2017	12/31/2020	3 Year 6 Months
Cognizant Technology Solutions India Limited	Associate	CHIL SEZ Coimbatore	05/31/2011	06/30/2017	6 Years 1 Months

ROLES AND RESPONSIBILITIES IN THE PROJECT:

Involved in developing the end to end application using Java, spring framework, Node.js and Angular based on the business requirements gathered and followed the best practices and coding standards during development. Creates technical design specification document for the application. Designs application UI screens using Angular and Bootstrap. Participates in daily agile scrum calls, defect triage calls, retrospective calls and product grooming calls which involves review of existing systems configurations and operating methodologies as well as understanding evolving business needs following Scaled Agile Framework. Develops screens with Angular and Bootstrap using reusable filters and directives and also develops the Responsive screens. Involves in designing database tables and develops multiple stored procedures and queries using DB2. Uses checkmarx for static code analysis and fix application security issues reported. Involves in deployment and testing of application in the development environment.
